

CAP PP 28/400mm with Polyseal

1113A	Polyseal			
Neckfinish	material outside	material inside	weight/gr.	height/mm
28/400	PP		2,1	14

Parts			
	Outside cap	inside cap	seal
	1112		HEX44
Material	Polypropylene ♻ 5 PP	n/a	♻ 7 other
Diameter outside	30,7	n/a	25,3
Height (mm)	14	n/a	1,5
Weight (g)	2	n/a	0,1
Recycled Content	Post-consumer recycled content (PCR): 0%	n/a	Post-consumer recycled content (PCR): 0%
Recyclabillity	Designed for recycling in existing PP recycling streams	n/a	Minor component – negligible impact on recyclability
Food Contact (EU Regulation No. 10/2011)	Declaration of Compliance available on request.	n/a	n/a
Masterbatch	Colour masterbatches from approved suppliers may be used. Colourants comply with applicable REACH requirements based on supplier declarations. Heavy metal-based pigments are not intentionally added.		
Tightening Torque (Nm)	2,5		
ISO 8317 Child-resistant packaging	not applicable		
Country of Manufacture	The Netherlands		

1112		HEX44
		

Packaging			
	box/pallet	pcs/box	pcs/pallet
Number	36	3.500	126.000
Size (mm)	485x380x275		1200x1000x1900
Weight (kg)	10		388

BTW nummer: NL 810369503B05

	Storage
Conditions	Dry, clean and free of dust
Temperature (°C)	15-30
Humidity (%rel)	40-60

	Legal statements
REACH (Registration, Evaluation, Authorization, and Restriction of Chemicals)	The Company complies with the requirements set out by the European Union Regulation (EC) No 1907/2006 (REACH). We ensure that all substances used in our products are registered, evaluated, and authorized, as necessary, to meet safety standards for human health and the environment. The information regarding the substances used in our products is obtained from the documents received from our suppliers. The Company does not use substances that are restricted under REACH without proper authorization.
RoHS (Restriction of Hazardous Substances)	The Company ensures that its electrical and electronic equipment are fully compliant with the EU RoHS Directive (2011/65/EU), which restricts the use of certain hazardous substances in electrical and electronic equipment. We rigorously monitor the levels of restricted substances, including lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls (PBB), polybrominated diphenyl ethers (PBDE), and other hazardous materials in our products. The information used for this compliance is based on the documents received from our suppliers.
PFAS (Per- and Polyfluoroalkyl Substances)	The Company recognizes the growing concern regarding the environmental and health impacts of PFAS. As part of our commitment to sustainability and regulatory compliance, we continuously assess our supply chains and ensure that our products do not contain PFAS substances in violation of applicable regulations, including REACH and other relevant national or international regulations. The information regarding PFAS is also sourced from the documents provided by our suppliers.
POPs (Persistent Organic Pollutants)	The Company complies with the Stockholm Convention on Persistent Organic Pollutants, which aims to eliminate or restrict the use of chemicals that persist in the environment, bioaccumulate in living organisms, and pose a risk to human health and the environment. We ensure that our products do not contain any POPs that are prohibited or restricted by international agreements or regulations. The information about POPs is based on the documents we have received from our suppliers.
SVHC (Substance of Very High Concern	No SVHC above 0.1% (w/w) according to supplier declarations and the ECHA Candidate List valid at the date of issue

	The Company is dedicated to maintaining full compliance with applicable laws and regulations concerning chemical safety. We actively monitor changes in legislation and regulations to ensure ongoing compliance. Any updates or changes to the composition of our products will be communicated to our stakeholders as required by law.
